ABOUT THE INSTITUTION

“Empowering Women, Empowering the Nation”, Higher education, especially to women, empowers not only the family but also the nation. Hence, higher education to women is often emphasized as a mission of capacity building of the nation. The significance of this aspect has been rightly recognized and there has been a paradigm shift in the scenario of women education in the urban. Nevertheless higher education to women in the rural area needs encouragement, as the main source of income of their parents is agriculture and per capita income is relatively very low. In this context, Sengamala Thayaar Educational Trust Women's College (STET) was established at Sundarakkottai, a hamlet in Thiruvavur District, in the year 1994 by Thirumathi Krishnaveni Vivekanandhan, who entrusted the task of nurturing the institution to her illustrious son Dr.V.Dhivaharan as the correspondent with yonder vision for promoting higher education to women students in this backward area. The institution offers 12 UG, 13 PG and five research, PG diploma and 16 diploma and certificate programmes. Sengamala Thayaar Educational Trust Women's College is recognized as one of the foremost Educational institutions in India. It has been accredited by the NAAC with “A” Grade (CGPA of 3.45 out of 4.00). It is an ISO 9001:2015 standard certified institution. The internal Quality Assurance Cell (IQAC) of the College is extremely active and evolves strategies and actions to achieve the goal of the institution. It is a Mentor institution to facilitate the non accredited institution to get accredited themselves, as recognized both by the UGC and NAAC.

ABOUT THE DEPARTMENT

Biochemistry is an advanced course which forms the basis for other fields including Bioinformatics, Microbiology, Biotechnology and Molecular biology. The Department of Biochemistry was established in 1995. It offers B.Sc., M.Sc., M.Phil and Ph.D programmes. It has a long tradition of research in various fields like Phytopharmacology, Biochemical Pharmacology, Micropropagation, Clinical Pharmacology, Immunopharmacology, Enzyme Technology, Nutritional Biochemistry, Biotechnology, Microbiology and Clinical Biochemistry. So far, the Department produced 611 Undergraduates, 464 Post graduate students, 108 M.Phil scholars and 7 Ph.D., scholars. Our students have secured 179 university ranks including 12 gold medals.

Department laboratories are equipped with sophisticated instruments. Students have ready access to books in the department library. The Department has received research projects from UGC- SERO, Hyderabad, and Tamil Nadu State Council for Science and Technology (TNSCST) and the Indian Council of Medical Research (ICMR). Faculty members have been regularly presenting papers in an International & National Conferences and publishing papers in an International & National Journals with high impact factor. The Department is organizing conferences, seminars, guest lectures, workshops, hands on training and extension activities regularly.

ABOUT THE CONFERENCE

Cancer is an important health problem in developing and developed countries. Every year, an average 182 per 100 000 persons suffer from cancer worldwide, and 102 die by cancer. The most important problem in cancer treatment is non selectivity of the medicines for cancer cells. In order to prepare anticancer medicines from natural resources like plants, testing cytotoxic compounds and screening raw extracts of plants is necessary. Therefore, availability of natural products with higher effectiveness and lower side effects is desired. Medicinal herbs are important for cancer treatment due to their multiple chemical compounds for discovering new active materials against cancer.

World Cancer 2019 will be the best platform for all the oncologists, haematologists, research scholars and students who are working in this field to exchange their knowledge related to Oncology Research, so as to create a platform to showcase their findings and deliberations. This international event is an effort to understand the underlying biological procedures which are amended to increase effectiveness, precision, survivability and quality of life. This Conference aims to accumulate current knowledge on molecularly targeted cancer

AREA OF FOCUS

- Clinical Research
- Pharmacology & Toxicology
- Patenting
- Medicinal Chemistry
- Nutraceuticals
- Medical Microbiology
- Nutritional Biochemistry
- Phytopharmacology
- Phytochemistry
- Molecular Modeling and Computer-Aided Drug Design
- Nanomedicine for cancer therapy (Drug delivery system)
- Cancer Biology
- Medical Biochemistry

GUIDELINES FOR THE ABSTRACT

Participants are invited to submit abstract of their research work for both oral and poster presentation, not exceeding 250 words. Submission of paper must be of original contribution and should not have been presented or published elsewhere. The name of the presenting author should be underlined. The authors are requested to follow the following format.

MS word
Letter style: Times New Roman
Font size: 12
Line space: 1.5
Address to: biointernationalconference2019@gmail.com.

ORAL AND POSTER PRESENTATION

Each oral presentation is strictly limited to 5 minutes. The Maximum poster size should be 3'*2'. The poster should consist of introduction, objectives, methods, results and conclusion.

PUBLICATION OF PROCEEDINGS

The full length research papers should be submitted along with soft copy to the above mentioned E-mail Id.

Registration Fee
Staff members/Industrialist: Rs.600
Research Scholar/Students: Rs.400
Participation: 300
ISBN Publication: Rs.1000

Papers will be published in the proceedings with ISBN number with the payment of Rs. 1000 in addition.

All payments should be made through DD drawn in favor of “STET Women's College, Mannargudi” payable at SBI Paravakkottai on 18.09.2019 or before 23.09.2019

Important dates

Submission of abstract: 18.09.2019
Intimation of Acceptance of Abstract: 20.09.2019
Submission of Full Papers: 23.09.2019
Intimation of Acceptance of full paper: 24.09.2019
