# HARDWARE SKILL DEVELOPMENT PROGRAMME

The Department of Computer Applications – ORIONTECH Club organized a "Hardware Skill Development Programme" on 07.09.2026 at 01.30 P.M. in the Language Lab, STET Women's College (Autonomous). The programme was organized with the objective of enhancing the practical knowledge and technical skills of students in computer hardware and related technologies.

The programme was graced by Dr. T. Thamaraiselvan, M.C.A., M.Phil., Ph.D., Managing Director, Isysway Technologies, Thanjavur, who served as the Resource Person. He provided valuable insights into computer hardware components, their functions, basic hardware troubleshooting, maintenance practices, and the practical skills required to handle computer systems effectively. The session helped the students gain a better understanding of hardware concepts through practical-oriented guidance and interaction with the expert.

Students from III BCA, III B.Sc. Data Science, and II MCA of the Department of Computer Applications actively participated in the programme. The students enthusiastically engaged in the session and gained useful practical knowledge about computer hardware and troubleshooting techniques. The interactive nature of the programme encouraged students to clarify their doubts and develop greater confidence in handling hardware-related tasks.

The programme was highly beneficial to the participants as it enhanced their practical knowledge, technical skills, problem-solving ability, and awareness of computer hardware maintenance. The session concluded with a vote of thanks to the Resource Person and all the participants for their active involvement and support in making the programme a success.
